
COMPELLING DRUG & ALCOHOL PRESENTATION

Prepare Your Students Now!

Illicit drug and alcohol use in our society is causing immense pain and devastation. It is clear that no school or community group is immune. Having survived drug addiction and consequently, several near-death incidents many years ago, speaker, Kerry Redpath is now offering a powerful Drug & Alcohol Awareness presentation.

Author of 'Out of the Darkness', Kerry delivers a compelling presentation which covers: her own personal story; tragic stories of others who have not been so fortunate; the brain & risk taking; the devastating negative side-effects of illicit drugs currently in use, including ICE, Ecstasy, Marijuana & Alcohol etc.; motives behind drug and alcohol use; information on help services available; what to do in an emergency (harm minimisation), the consequences Kerry lives with today, the power of our choices and much more.

Kerry concludes her engaging presentation with a message of student potential and hope for the future, and an open question time.

As one who made a huge mistake when she was young and naïve, Kerry speaks with authority on this topic and has a passion to reach as many people as possible with her stark warning, a fact clearly evident in her presentation.
